

Vorschläge und Berichte zur Reform des europäischen und deutschen internationalen Gesellschaftsrechts

Vorgelegt im Auftrag der zweiten Kommission des Deutschen Rates für Internationales Privatrecht, Spezialkommission Internationales Gesellschaftsrecht Edited by Hans Jürgen Sonnenberger

This volume contains proposals for the reorganization of the international conflict of laws for corporations. These were developed by the special commission for international corporate law which was appointed by the German Council for International Private Law. The commission was appointed to provide advice following the decisions pertaining to corporate law made by the European Court of Justice on the freedom of establishment for corporations. These made it necessary to find a new concept for international corporate law. This publication contains those proposals presented to the German Federal Minister of Justice for a European and by an alternative method for a German regulation along with the expertises and the reports of the proceedings provided for the commission. Due to the significance of this subject for all of Europe, the proposals are given in German, English and French.
