## Konsistenz und Konsens

### Die Anforderungen des Grundgesetzes an die Folgerichtigkeit der Gesetze

Over the past two decades, the German Federal Constitutional Court fundamentally changed its approach to contradictions within the law. In this volume, Laurence O'Hara gives a systematic account of the new requirements and their scholarly reception. He shows how obligations of legislative consistency fit into the concept of a modern democratic constitutional state - especially how they relate to the way the constitutional institutions interact to generate public rationality.
