

Günter Spendel

Für Vernunft und Recht

Zwölf Studien

In these collected studies, previously published in various other works, Günter Spendel deals with subjects of general significance which are also of historical and political interest. They have been written in a manner which emphasizes the author's trust in reason and his efforts on behalf of justice. The articles will appeal to those with or without a legal background and will help to counteract the educated laymen's lack of familiarity with the law, a lack which has often been lamented.

Günter Spendel Geboren 1922; Studium der Rechtswissenschaft in Frankfurt und Freiburg; 1947 Promotion in Heidelberg; 1953 Habilitation in Frankfurt am Main; 1962 o. Professor in Würzburg, dort 1990 emeritiert.
