

Sola Scriptura 1517-2017

Rekonstruktionen - Kritiken - Transformationen - Performanzen Edited by
Stefan Alkier

Sola scriptura is the heart of Protestant theology that encapsulates and expresses the Reformation's theory of Scripture. But can and should it still be applied today? The contributors to this volume address this question from four different vantage points to assess the validity of this theological-hermeneutical concept - or to at least ascertain whether it can perhaps help Protestant theology escape the Babylonian bonds of a historically narrow interpretation of Scripture.

Stefan Alkier ist Professor für Neues Testament und Geschichte der Alten Kirche am Fachbereich Ev. Theologie der Goethe-Universität Frankfurt am Main.
