

J. Christopher Edwards

The Gospel According to the Epistle of Barnabas

Jesus Traditions in an Early Christian Polemic

[The Gospel According to the Epistle of Barnabas]

Published in English.

While the reasons for the initial parting of the ways between Barnabas' community and lived Judaism are irrecoverable, J. Christopher Edwards shows that Jesus became foundational for maintaining separation between »them« and »us.« The author undertakes a thorough study of the epistle's Jesus traditions and demonstrates that Jesus is the rhetorical key to almost every argument in this early piece of *Adversus Judaeos* literature, whether it concerns the law, the covenant, the land, Yom Kippur, circumcision, baptism, the Sabbath, or the temple. No previous work has made the Jesus traditions in Barnabas the focus of its attention.

J. Christopher Edwards Born 1982; Associate Professor in Religious Studies at St. Francis College (Brooklyn Heights, NY).
