

Signs and Discourses in John 5 and 6

Historical, Literary, and Theological Readings from the Colloquium Iouaneum
2019 in Eisenach Edited by Jörg Frey and Craig R. Koester

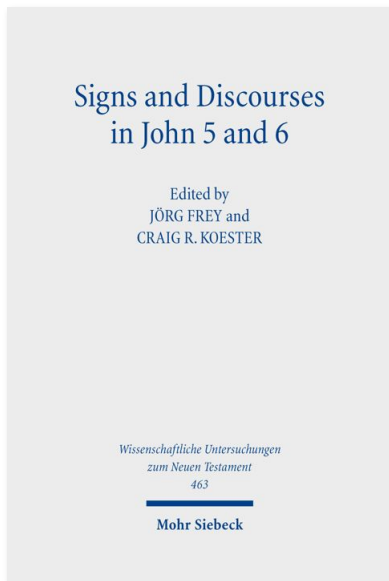

[Signs and Discourses in John 5 and 6]

Published in English.

The contributions in this volume are by members of the Colloquium Iouaneum, an international group of Johannine scholars who meet every two years for discussion of a section of the Fourth Gospel. The proceedings of the 2019 meeting focus on the signs and accompanying discourses in John 5 and 6, which contributors approach using different methods of interpretation. Narrative issues include the characterization of Jesus, the disciples, and other figures, the construction of space, assumptions about the audience, creation motifs, and the role of intertextuality. Attention is given to Johannine perspectives on Christology, soteriology, eschatology, and judgment. Careful consideration is given to questions of the Gospel's use of eucharistic language and the origins of Johannine theology.

Jörg Frey Geboren 1962; 1996 Dr. theol.; 1998 Habilitation (beides Tübingen); 2024 Dr. h.c. (Uppsala); war Professor in Jena (1998) und München (1999) und ist seit 2010 Professor für Neues Testament mit Schwerpunkten Antikes Judentum und Hermeneutik an der Universität Zürich und Research Associate am Department of Old and New Testament der University of the Free State, Bloemfontein (Südafrika).
