

Delphi

Apollons Orakel in der Welt der Antike Edited by Balbina Bähler and Heinz-Günther Nesselrath

The twenty-three contributions in this volume, based on a 2017 conference, look at the Oracle of Delphi from multiple perspectives. A section on archaeology is followed by one investigating the oracle itself and its »functioning,« while a third examines the role of Delphi in Greek history. The representation of the oracle in archaic and classical Greek Literature is dealt with in the fourth section, followed by Delphi's role in philosophical and theological (both pagan and Christian) texts of Imperial Roman times in the fifth. The sixth section looks at Delphi's later image, for example, in modern research on the geophysical preconditions of the Pythia's inspiration, but also Delphi's presence in modern board games. In this way, the volume offers a comprehensive view of the oracle and its manifold ramifications.

Heinz-Günther Nesselrath Geboren 1957; 1976-81 Studium der Klassischen Philologie und der Alten Geschichte an der Universität zu Köln; 1981 Promotion; 1987 Habilitation; 1992-2001 vollamtlicher Professor für Klass. Philologie an der Universität Bern; seit 2001 Universitätsprofessor für Klass. Philologie an der Georg-August-Universität Göttingen.

Balbina Bähler Geboren 1967; 1997 Promotion in Klassischer Archäologie an der Universität Bern; seit 2021 wissenschaftliche Mitarbeiterin in der DFG-Forschungsgruppe 2064 ("STRATA: Stratifikationsanalysen mythischer Stoffe und Texte in der Antike").
