

Lorenz B. Puntel

## Sein und Nichts

Das ursprüngliche Thema der Philosophie

This work is the final volume of a *Trilogy of Being*, the first two volumes of which, *Structure and Being* and *Being and God*, were published in 2006 and 2010, respectively. This volume presents a comprehensive theory on Being comprising two (sub) theories: the theory of (Being of) beings (ontology) and the theory of Being as such (einaiology). The theory of Being is the result of the systematic development of the difference between being(s) and Being and of the clarification of the concept of nothingness.

**Lorenz B. Puntel** Geboren 1935; Studium der Philosophie, Psychologie, Altphilologie und (kath.) Theologie in München, Wien, Paris, Rom und Innsbruck; 1968 Promotion in Philosophie; 1969 Promotion in (kath.) Theologie; 1972 Habilitation in Philosophie; 1978 Professor für Philosophie an der Universität München; 2001 emeritiert.
