## The Ritual Dimension of Union With Christ in Paul's Thought

[The Ritual Dimension of Union With Christ in Paul's Thought]

Published in English.

The study of "in Christ" language in New Testament scholarship has received widespread attention in recent years. Nevertheless, despite all the perspectives from which scholars have treated this topic, one aspect of "in Christ" language has received only scant attention: its ritual or sacramental aspect. While theological, epistemological, and linguistic factors have contributed to the downplaying of rituals like baptism and the Lord's Supper in the New Testament, Yu Chen develops the framework of a ritual transformation model from ritual theories to place the study of ritual in its rightful place. Accordingly, the author focuses on the historical and social implications of the ritual performance of baptism and the Lord's Supper, which are used to explain the mechanisms of union with Christ. Finally, he argues that rituals provide participants with access to the transformative experience of encountering the risen Messiah.

**Yu Chen** Born 1990; 2014 BA in Biblical & Theological Studies at Nyack College; 2017 MA in Biblical Studies at Durham University; 2021 PhD in New Testament and Christian Origins at the University of Edinburgh; currently teaching at the Guangdong Union Theological Seminary, China.
